## FEATURED WINE PRODUCT

Have you heard about the Coravin? This device allows us to pour very special highly allocated and cellared wines by the glass. It has a needle that penetrates the cork, pumps argon gas into the bottle and the wine flows out without ever seeing oxygen which allows the wine to continue to age. Throughout the list you will see certain bottles of wine which we will use the Coravin and pour 5.5 ounces of that specific wine for the glass price listed on the left of the backslash. The price to the right of the backslash is the bottle price. Take advantage of our buying power to try a wine you may not find elsewhere. Cheers.
